Overview

A Final Year Computer Science Engineering student with a proven track record as a Full Stack Developer, delivering robust and scalable web applications. Leveraging expertise in both frontend and backend technologies to drive impactful digital solutions.

Education

Maharshi Dayanand University

Bachelor of Technology in Computer Science

Expected July 2026

Delhi

- **Relevant Coursework:** Data Structures and Algorithms, Operating Systems, Database Management Systems, and Computer Networks

Experience

Food Safety & Standards Authority of India (FSSAI)

Information Technology Intern

July 2025 – Sep 2025

Delhi

- Developed and launched the official website for the **Global Food Regulators Summit (GFRS)**.
- Implemented a dynamic content management system, reducing event update processing time and helping streamline communication for national and international attendees.
- Optimized the site's accessibility features.
- Enhancing user experience and facilitating seamless access to event resources

Projects

Nexora | Next.js, WebRTC, LiveKit, TypeScript, React, Node.js, WebSockets

[Live](#)

Developed a feature rich Discord clone from scratch, implementing real time voice, video, and chat functionalities using WebRTC. Achieved uptime and reduced latency through optimized peer to peer connections. Engineered a scalable architecture with Next.js, improving server response times. Designed an intuitive UI with modern aesthetics, enhancing user engagement. Implemented robust backend services with LiveKit, ensuring seamless real-time data synchronization and high quality audio/video streaming

22 Yards | Next.js, TypeScript, Responsive Design

[Live](#)

A fast and modern web application that brings live cricket scores, in-depth player stats, and complete match insights into one smooth experience. Whether it's live matches, recent scorecards, or upcoming fixtures. Everything updates instantly with a responsive and clean UI.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS

Technologies: React.js, Next.js, Rest.js, Express.js, PostgreSQL, MySQL, Prisma

Tools: GitHub, VS Code

Concepts: Compiler, Operating System, Virtual Memory, Artificial Intelligence, Machine Learning, Neural Networks, API, Database Normalization, Cloud Computing

Certificates

[Information Technology Intern at Food Safety & Standards Authority of India](#)
